You are cordially invited to a Virtual CME Activity

E-cigarette or Vaping Use-Associated Lung Injury (eVALI)

Presented by: Pamela Zeitlin, MD, PhD

Date: Tuesday, April 30, 2024

Time: 12:00pm – 1:00pm MDT

This course is designed to provide general Pediatricians, Family Medicine, Emergency Medicine Physicians, Emergency Medicine APPs, first responders, and allied health professionals with comprehensive information on lung injury due to e-cigarettes. Awareness of the risks of e-cigarettes/vaping will help primary care providers educate their patients, a vital part of confronting this problem.

Please scan QR code to register

Learning Objectives: At the conclusion of this activity the learner will be able to:

1. Review the statistics on e-cigarette use or vaping by teens and young adults
2. Describe the components delivered to the lungs by vaping and the short- and long-term risks to health
3. Discuss strategies to confront the problem
